A BRIEF SUMMARY

P-Phone is aiming at a new telephone service, in which an employer can give all key persons a good security protection system.

P-Phone...

- protect the place of work, residence and other personal territories,
- log everything within the reach of a telephone day and night,
- link together the search of a person to desired telephone system,
- offers personal call from a telephone operator.

P-Phone is providing more than earlier security system, based on a personal responsibility and is using for maximal performance price-quote to considerable extent new technique.

A BRIEF SUMMARY IN SWEDISH

P-Phone avser en ny teletjänst där en arbetsgivare kan ge alla nyckelpersoner ett bra säkerhetssystem.

P-Phone ...

- skyddar arbetsplatsen, bostaden och andra revir,
- loggar allt med åtkomst via telefon dygnet runt,
- länkar sökning av person till önskat telesystem,
- erbjuder personlig uppringning från teleoperatör.

P-Phone bygger mer än tidigare säkerhetssystem på personligt ansvarstagande och använder för maximal prestanda/pris-kvot en till väsentliga delar ny teknik.
